Biology

Corban University · Bachelor

Explore living systems through scientific investigation, laboratory methods and analysis.

BEFORE YOU APPLY

Plan supporting science and mathematics courses, and separately check any professional-school prerequisites.

TIME, SCHEDULE & APPLICATION

4 years · 120 degree credits. Ask about laboratory attendance and the selection process for research and internships.

BUILD YOUR BUDGET

2026-27 traditional on-campus undergraduate tuition is $38,864 annually for 12-18 credits per semester, before fees, books and living expenses. Online undergraduate pricing differs. These are published charges before financial aid, not the full award price. Add remaining program and living expenses; compare your cost after confirmed aid.

CREDENTIALS & OUTCOMES

Biology can support laboratory and research-related work. It is not a clinical license; medicine and many specialist research careers require further education.

YOUR NEXT THREE STEPS

1. Review the exact program. Match the award and location to the route you want.
2. Check preparation and timing. Ask for a personal course plan and the next admission steps.
3. Build your full budget. Include required charges, travel and living expenses.
