

Computer Science

Lewis & Clark College · Bachelor

Build computing, programming and problem-solving skills for software work and further study.

BEFORE YOU APPLY

Compare the standalone and joint majors before planning your mathematics and computing courses.

TIME, SCHEDULE & APPLICATION

128 semester credits. Confirm the complete bachelor's degree plan. Build a schedule around programming projects and required advanced coursework; confirm concentration availability.

BUILD YOUR BUDGET

2026-27 full-time undergraduate tuition is \$70,658 for two semesters, plus a \$360 student-body fee. Health insurance is listed separately at \$5,655 annually (waiver rules apply). Housing, meals, books and other expenses are additional, before financial aid. Add remaining program and living expenses; compare your cost after confirmed aid.

CREDENTIALS & OUTCOMES

A computing degree can build relevant skills, but hiring also depends on projects, technical practice and experience. A concentration alone does not establish readiness for every specialist role. Scorecard related-field median: \$66,653 at 1 year after completion (2022 dollars). See profile for cohort and coverage.

YOUR NEXT THREE STEPS

1. [Review the exact program](#). Match the award and location to the route you want.
2. [Check preparation and timing](#). Ask for a personal course plan and the next admission steps.
3. [Build your full budget](#). Include required charges, travel and living expenses.

Program review: 2026-09-15. Evidence update: September 16, 2026.
